Education

Higher National Diploma

Info Myanmar Collage

2022 - 2023

Bachelor of Science

Edinburgh Napier University

2024 - 2024

Language

English (Fluent)

Myanmar (Native)

Profile

I am Sai Sat Naing Win, a dedicated and aspiring IT professional with a strong foundation in computing and network administration. I recently completed my BSc in Computing from Edinburgh Napier University and have expertise in system administration using Ubuntu, Python programming, routing protocols (RIP, OSPF, EIGRP), VLAN management, and network security (IDS, IPS, ACL rules). I also have working experience with Docker containers at a level beyond beginner.

In addition, I possess practical knowledge of SIEM and IAM systems, and I am proficient in using Wireshark for packet analysis and network troubleshooting. I have also earned the Fundamentals in Cybersecurity certificate from Fortinet, further strengthening my understanding of cybersecurity principles.

Currently, I am enhancing my skills by attending courses on Windows Server 2016 and CCNA certification. In the near future, I plan to pursue penetration testing, CEH certification, and CCNP to deepen my expertise in cybersecurity and data center network engineering. My ultimate goal is to become a cybersecurity expert and a data center network engineer, contributing to building secure and resilient IT infrastructures.

Learned

CSN08601- Computer System

CSN08614 - Scripting for Cybersecurity and Networks

CSN09603 - Networked

Services (Server Administration, Using Centos 7, Red hat 7)

CSN09612 - network security and cryptography

SET09603 - Advanced Web Technologies

SOC09609 - Group Project

Cloud Services (MS Azure)
